

DOOR ACCESS CONTROL WITH BIOMETRIC SYSTEM AND FINGERPRINT

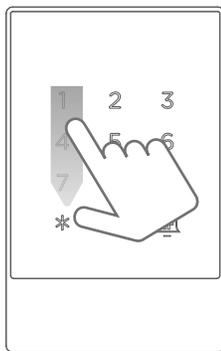

User manual JKHD-C02

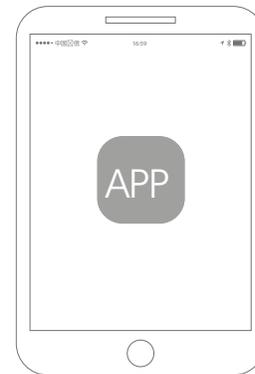

Pair the access controller with app

Fix the hook to the mounting plate with 2 screws.

- 1 Tap the panel to light it up and activate the lock

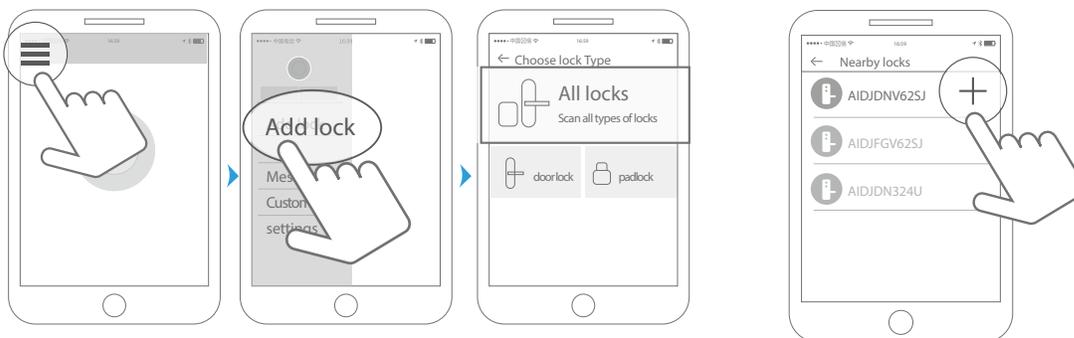

- 2 On voice prompt Please add Bluetooth administrator, activate the APP

- 3 Tap the "☰" icon on the upper left corner, "tap + Add lock", select door lock.

- 4 Tap the device shown on the screen. Wait a few seconds till the lock gives a voice prompt/long beep, which means it is added successfully.

⚠ Notice: If fails, please shut off the APP and Bluetooth, turn them on and try the above process again.
